## About me

A Frontend developer with **6 years of experience** in the following technologies: **JS, React, Redux, TS.**

I have experience in leading a development team of 10+ people for 3 years.

## Employment History

### 1. Frontend / Team Lead, Alar, Budva

OCTOBER 2020 – PRESENT

#### Product description:

Startup real-time chat application. A collaboration and productivity platform designed for teams and organizations.

#### My achievements:

- Optimized Daily Meetings, saving 100+ person-hours per week for the company.
- Reduced average onboarding time from 3 months to 1 month by implementing thorough guidelines and documentation.
- Integrated linters and code formatters into CI pipeline, reducing the average code review time by 50%.

### 2. Frontend Developer, Os-system, Odessa

JULY 2018 – SEPTEMBER 2020

#### Projects:

Real Estate Rental App, Social Network App, Crypto Startup.

#### My achievements:

- Resolved over 50 critical production bugs in a year as part of a "Fast Response Team".
- Took over the responsibility for onboarding and mentoring processes, saving 20 hours of the Team Lead's time monthly.

### 3. Fullstack Developer, Freelance, Odessa

FEBRUARY 2018 – JULY 2018

#### My achievements:

- Reached a 90%+ Client Satisfaction Rate on freelance platforms.
- Achieved a recurring client base of over 40%.

## Education

### Bachelor, Kyiv State University of Infrastructure and Technologies, Kyiv

SEPTEMBER 2015 – MAY 2019
