## Employment History

### Senior Frontend Developer

NDA

December 2022 - Present

#### Product description:

AI-Powered Innovation Solutions B2B startup from Silicon Valley.

Designed to help business collecting data from various sources (PDF, PowerPoint, Web), processing this data and displaying it to the customer in a well-organized way.

#### My achievements:

- Built frontend application from scratch, following architectural patterns, ensuring great performance and scalability.
- Developed frontend anticipation mechanism that pre-loads content in advance, based on a user's behavioural patterns, reducing waiting from 1-2 minutes to 10-20 seconds.
- Covered frontend application with E2E tests and Sentry monitoring to ensure app's stability, eliminating the need to hire a QA.

### Senior Frontend Developer

Alar Development

October 2020 - November 2022

#### Product description:

A collaboration platform startup designed for teams and organizations. It offers real-time messaging, file sharing, and integration with various third-party apps to streamline workflow and improve productivity.

#### My achievements:

- Decoupled frontend-backend monolith in 2 weeks, when it was estimated for 3 month.
- Developed real-time update feature to show incoming messages without the need to refresh the page, using WebSocket.
- Introduced TypeScript to the frontend application, improving type safety and decreasing total monthly bugs quantity by 30%.

### Middle Frontend Developer

OS system

July 2018 - October 2020

#### Projects description:

Various projects in different business domains, such as: Real Estate, EdTech, Social Media and Crypto, delivering scalable frontend solutions.

#### My achievements:

- Resolved over 50 critical production bugs, as a part of a "Fast Response Team".
- Communicated with product owners and project managers, developing features as per their requirements within estimated time frames.
- Developed and enhanced the frontend architecture and components of projects, focusing on both expanding existing features and introducing new ones.

## Education

### Bachelor's degree

Kyiv State University of Infrastructure and Technologies

September 2015 - May 2019
